**CREATIVITY, INNOVATION, AND VISION** This course will help you increase your creativity. Studying a mix of theory and practice, you will explore the nature of creativity, the process of innovation and how vision becomes reality. You will practice techniques to enhance personal and group creativity. A major semester project will allow you the opportunity to (a) create a product, process or service or (b) create solutions for a nonprofit organization. Open to all majors and levels, no prerequisites.
