Chemistry

CHEM 317  **Inorganic Chemistry Lab**  credit: 3 hours.
Emphasizes modern techniques for the synthesis, purification, and characterization of inorganic and organometallic compounds. There are three components to the course: lectures on laboratory methodology and reporting, laboratory experiments, and report writing. The final third of the course is dedicated to special individualized projects. Additional fees may apply. See Class Schedule. Prerequisite: CHEM 312; completion of campus Composition I general education requirement.

This course satisfies the General Education Criteria for a:
Advanced Composition
