Physics

PHYS 150  Physics of Societal Issues  credit: 3 hours.

Physics topics and applications relevant in the modern world: energy, quantum mechanics, electricity and magnetism, nuclear physics, waves, light, and outer space. Application to satellites, alternative energy, medical imaging, radiation, nuclear weapons, climate change, and electronics. Emphasis on analytical thinking and the applicability to modern societal issues.

This course satisfies the General Education Criteria for a:
Nat Sci & Tech - Phys Sciences
Quantitative Reasoning II
