Minorities Interested in Engr  
Instructor Approval Required  
Not intended for Engineering.  
MEP mentoring. This class provides mentoring and support to students from backgrounds underrepresented in engineering who are interested in transfer into the college of engineering. The course provides an overview of studying engineering and strategies for academic and professional success. Students will commit to take part in the Morrill Engineering Program support services.

Credit Hours: 1 hours  
PURE Research Program  
Instructor Approval Required  
Restricted to Undergrad - Urbana-Champaign.  
Promoting Undergraduate Research in Engineering (PURE) is a research program that aims to provide first-hand research experience to underclassmen in engineering. The PURE program pairs graduate mentors up with undergraduate students on a semester-long research project and expect students to produce and present posters at the year-end symposium. Student must apply and be accepted to PURE before enrolling in the ENG 199 PUR course. For further details, please visit: https://wiki.cites.illinois.edu/wiki/display/PURE/

| 59664  | Lecture-Discussion    | SFD     | 03:30 PM - 04:50 PM| R    | 1103 - Siebel Center for Comp Sci | Favila, I  |

Credit Hours: 1 hours  
Instructor Approval Required  
This class is designed to facilitate student success in the engineering curriculum. Students will commit themselves to their academic and personal development, adapt and integrate themselves in the College of Engineering, and learn about their engineering discipline.

| 58260  | Lecture-Discussion    | TP      | 04:00 PM - 05:20 PM| MW   | 203 - Transportation Building   | Morsch, H  |

Credit Hours: 3 hours  
Restricted to students with Freshman or Sophomore class standing.  
This class is designed for students who want to explore the different engineering disciplines. Prerequisite: Math 115 or equivalent, or consent of instructor.
