Class Schedule - Spring 2016

**Mathematics**

MATH 482  **Linear Programming**  credit: 3 OR 4 hours.

Rigorous introduction to a wide range of topics in optimization, including a thorough treatment of basic ideas of linear programming, with additional topics drawn from numerical considerations, linear complementarity, integer programming and networks, polyhedral methods. 3 or 4 undergraduate hours. 3 or 4 graduate hours. 4 hours of credit requires approval of the instructor and department with completion of additional work of substance. Prerequisite: MATH 410, MATH 415, or MATH 416.

Credit Hours: 3 hours
Open to both undergraduate and graduate students. Restricted to Mathematics major(s). This restriction will be removed during business hours on December 8, 2015.

Credit Hours: 4 hours
Instructor Approval Required
Not intended for Undergrad - Urbana-Champaign.
Instructor approval forms available in 313 Altgeld Hall starting the first day of the spring semester.
