### CHEM 104  **General Chemistry II**  credit: 3 hours.

Lecture and discussions. Chemistry of materials, including organic and biological substances, chemical energetics and equilibrium, chemical kinetics, and electrochemistry. Credit is not given for both CHEM 104 and CHEM 204. Prerequisite: CHEM 102 or CHEM 202 or advanced placement credit for one semester of college-level chemistry.

All students enrolled in CHEM 104 should also enroll in CHEM 105. Students must register for a combination of one lecture and one quiz section beginning with the same letter. Engineering students must obtain a dean's approval to drop this course after the second week of instruction. CHEM 104 and CHEM 105 are approved for General Education credit only as a sequence. Both courses must be completed to receive Natural Science and Technology credit.

This course satisfies the General Education Criteria for a:

**CHEM 592  Preparing Graduate Fellowships**  credit: 1 hours.
This course assists first- and second-year graduate students as well as a selected few senior undergraduate students in their efforts to obtain external grants and fellowships. Using the National Science Foundation (NSF) Graduate Research Fellowship Program (GRFP) as an example, the course provides the students with general information and guidance about preparing grant applications. Each student will prepare a complete application package, which can be submitted to the NSF GRFP at the end of the course, although such submission is optional. Approved for S/U grading only. Prerequisite: For first- and second-year graduate students in Chemistry. Some
senior undergraduate students who have high GPA and research experience in faculty laboratories may enroll with the instructor's approval.
