Instructor Approval Required

Credit Hours: 1 hours  
Departmental Approval Required  
Topic: Research in Mathematical Biology. Restricted to students who are already a part of the Illinois Biomathematics Program.  
To enroll, email mathadvising@illinois.edu with your UIN, "Math 199 Biomath," and the last semester that you participated in the program.

Credit Hours: 1 hours  
Departmental Approval Required  
For Math 285 Merit Workshop students only. Students must register for Math 285 section C1. For further information see https://math.illinois.edu/timetable

Credit Hours: 1 hours  
Departmental Approval Required  
For Math 115 Merit Workshop students only. Departmental approval required. For further information see https://math.illinois.edu/timetable

Credit Hours: 1 hours  
Intro to Undergrad Mathematics  
Restricted to Mathematics or Math & Computer Science major(s).  
Have you ever wondered if there is math beyond Calculus? Do you want to see talks by distinguished math faculty, but worry that you don’t know enough math? Are you interested in learning about summer research experiences and study abroad opportunities? Would you like to meet other Math majors? If you answered yes to any of these questions, then you should register for Math 199! You could be a part of a pilot course designed specifically for math majors, discover what mathematics is actually like, and how to take advantage of all the opportunities our department has to offer. This 1-credit course will include approachable math talks by faculty members, informative graduate student panels, and practical professional development workshops. Among other things, you will learn about exciting areas of math like algebraic geometry, how to write a CV and apply to an REU, and what you can do with a math degree (anywhere from pursuing a PhD to working for industry).
