Class Schedule - Spring 2019

Aerospace Engineering

AE 598  **Special Topics**  credit: 1 TO 4 hours.
Subject offerings of new and developing areas of knowledge in aerospace engineering intended to augment existing formal courses. Topics and prerequisites vary for each section. See Class Schedule or departmental course information for both. May be repeated in the same or separate terms if topics vary to a maximum of 12 hours.

Credit Hours: 4 hours
Adv Global Nav Sat Systems
Satellite Navigation, and in particular, the Global Positioning System (GPS) is a critical component in avionics, and has been widely used in both ground and aerial vehicles. The discipline is in a period of flux. The U.S. GPS and the Russian GLONASS are being joined by the European Galileo and the Chinese BeiDou systems. Furthermore, the prospect of a commercial UAV industry in the near future will create significant new engineering opportunities in designing and building avionics systems involving GPS. In this course, students will learn advanced satellite navigation technologies with applications in UAV flight and control systems.

| 64177| Lecture-Discussion | NSM   | 10:00 AM - 11:50 AM | MW   | 410C1 - Engineering Hall         | James, K   |

Credit Hours: 4 hours
Nonlinear Solid Mech Design
This course will be taught with ME 570, Nonlinear Solid Mech Design. Optimality conditions; finite methods; design sensitivity analysis; transient analysis; thermo-mechanical solid mechanics. Prerequisite: One of AE 420, CEE 470, ME 471, TAM 470, TAM 445, TAM 551.

| 69582| Online          | NSO    | ARRANGED -       | -    |                                 | James, K   |

Credit Hours: 4 hours
Nonlinear Solid Mech Design
Restricted to MS: Civil Engr - Online - UIUC, MCS:Computer Sci Online -UIUC, MS:Industrial Engr Online-UIUC, MS:Mechanical Engineering -UIUC, MS:Env Engr CivilEngr ONL-UIUC, MS: Aerospace Engr-Online-UIUC, NDEG:Grad Nondegree-CE-UIUC, or MENG:Mech Engineering Onl-UIUC.
This course will be taught with ME 570, Nonlinear Solid Mech Design. Optimality conditions; finite methods; design sensitivity analysis; transient analysis; thermo-mechanical solid mechanics. Prerequisite: One of AE 420, CEE 470, ME 471, TAM 470, TAM 445, TAM 551. Restricted to online grad non-degree, online MCS, online MSME, online MSCEE, and online MSAE students. For more details on this course section, please see http://engineering.illinois.edu/online/courses/. Non-Degree students may enroll on a space-available basis with consent of Program Coordinator, Staci McDannel (tank@illinois.edu).
