## Computer Science

**CS 398  Special Topics**  credit: 0 TO 4 hours.

Subject offerings of new and developing areas of knowledge in computer science intended to augment the existing curriculum. See Class Schedule or departmental course information for topics and prerequisites. May be repeated in the same or separate terms if topics vary.

Credit Hours: 3 hours
Deep Learning
Prerequisites: IE 300 and Math 415 (or equivalent courses). Deep learning has revolutionized image, text, and speech recognition. There's also growing interest in applying deep learning to science, engineering, medicine, and finance. This course covers convolution neural networks, recurrent neural networks, and deep reinforcement learning. Students will learn how to train deep learning models using PyTorch and GPU computing.

| 65174  | Lecture-Discussion | EJP     | 05:00 PM - 08:00 PM | F    | ARR - Danville IL | Ginsburg, R Zhang, M |

Credit Hours: 3 hours
Machine Learning
Departmental Approval Required
Not intended for NDEG: Undergrad Nondeg-CE-UIC.
Meets 05-Feb-19 - 21-May-19.
Restricted to students participating in the Education Justice Project

| 68294  | Lecture-Discussion | IDU     | 02:00 PM - 03:50 PM | M    | 126 - Grad Sch of Lib & Info Science | Stodden, V    |

Credit Hours: 3 hours
Introduction to Data Science
