Nat Sci & Tech - Life Sciences course.
Course meets March 11 – May 1, 2019. This is an online course taught in the Moodle course management system with no classroom sessions. Although there are no scheduled meeting times, there are multiple assignment due dates each week and also weekly online self-assessments. A final video project will be submitted online instead of a F-2-F final lecture exam. Additional course information is available at: http://www.life.illinois.edu/bio100/ib100onl.html.
